Good morning! Dear students and strategic partners, this is James Wilson. The second major inflation data of the week—July CPI—has just been released. A rate cut by the Federal Reserve in September has now become a certainty. While a rate cut is usually seen as positive news, if it is driven by economic recession and inflationary pressures, it becomes a significant negative.

The Consumer Price Index (CPI) is a key indicator for assessing price levels and inflation. A slowdown in this data would indicate that the September rate cut is preventive, which could be short term positive. However, the disappointing PPI data has made the

FB Finance Institute - 15th Session

CPI results less favorable, leading to the early exit of funds that were betting on a 50-basis-point rate cut in September.

Without a doubt, for all of you who have joined the Strategic Partners group, our golden trading opportunity has arrived. Please open your accounts immediately and be ready to trade. Our profits are like a supercar without brakes, leaving the esteemed swimmer "Mr. Shark" far behind! This time, we're not even giving Mr. B the chance to see our taillights.

The competition between Mr. Shark and me for the Chief Practical Instructor position has reached a critical stage. The winner of this round will replace Professor Clark as the leader of the Senior Strategic Partner and Principal Strategic Partner teams. This three week profit showdown will undoubtedly leave a significant mark in the history of the Institute. In just a few weeks, we will determine who will be the next GOAT of the Institute.

I must remind you that each of your votes represents support for the Institute's core values and principles. Your votes will decide

FB Finance Institute - 15th Session

whether we can propel the Institute to an even greater future! Your vote can change everything! To underscore the importance of this moment, the Institute has prepared an extraordinarily generous reward for the supporters of the winner—a one year free usage of the institutional edition of the AI4.0 system, valued at \$1 million! Additionally, top performing supporters will have the opportunity to become regional agents and distributors of the AI4.0 system!

Congratulations, everyone! Our recent trade has already yielded profits. Please stay tuned for the take-profit signal! As we can see, the AI4.0 investment system has evolved to an entirely new level. When you use the institutional edition of AI4.0 for trading, you will be like Buffett, amassing astonishing wealth in the investment market. Securing the regional licensing agent qualification offers an even more advantageous position. The Institute will invest heavily in promoting the AI4.0 system, and you can simply stay at home, with orders pouring in effortlessly, transforming into stacks of cash that flow into your pockets!

Therefore, my dear friends, the first correct choice you need to make is to support me! My all encompassing abilities will undoubtedly make me the ultimate winner. Secondly, for all the strategic partners, if you have bigger ambitions, such as becoming one of the top earners in this competition, you need to prepare more funds to join my higher tier groups. I will help you secure the AI4.0 system regional agent qualification! Because in my compounding mode, the more capital you have, the lower the risk and the higher the returns!

Mr. B pointed out that I haven't made any bold promises—such as guaranteeing everyone's absolute returns. Let me respond briefly to this. First of all, I'm not someone who likes to boast. I prefer to dream big but remain grounded, approaching everything with sincerity. Secondly, I believe every American citizen upholds the spirit of contract.

When you join my team, I will sign a legally binding contract with you—the Strategic Partner Investment Plan Agreement.

This agreement includes the following key points:

FB Finance Institute - 15th Session

1. I will provide you with customized investment services, ensuring you receive the benefits associated with your level.
2. I will offer investment advice aimed at achieving the target total asset return rate within the contract period.
3. When the contract term ends, if your total asset return rate hasn't been met, I will make up the unrealized gains within one week.

Simply put, you will definitely achieve returns that match your team level. Then, you will need to allocate a small portion of your net profit to purchase the institute's AI4.0 system. The purpose of this is to lay a solid foundation for the market promotion and listing of the AI4.0 system. I believe everyone understands this, which is why I can only view Mr. B's absurd rebuttal as a joke.

As for the \$10 million prize for the winner of this round of competition, to be honest, I'm not particularly concerned about it. I already achieved financial freedom when I traded \$TSLA options, and I live a fairly frugal lifestyle, so this money is neither here nor there for me. But I recall a certain swimming enthusiast who once

ran off to buy a vineyard somewhere in Europe, squandering his assets entirely. Hmm? Am I right, Mr. B?

Friends, my goal has always been focused on securing a seat on Professor Clark's foundation board and becoming the next leader of the Institute. Whether you'll even get that money, I won't speculate, but I'm certainly dissatisfied with your distribution plan! I don't like this attitude of rewarding the highest bidder. Since this is a benefit designed by Professor Clark to select a more outstanding successor, it should benefit more of our members. I intend to allocate this fund in the following way to help everyone preserve more profit and reduce the cost of pre-ordering the AI4.0 system.

1. \$5 million will be evenly distributed among Principal Strategic Partners.
2. \$3 million will be evenly distributed among Senior Strategic Partners.
3. \$1.5 million will be evenly distributed among Intermediate Strategic Partners.

4. \$500,000 will be evenly distributed among Associate Strategic Partners.

AI 4.0 Strategic Partner Investment Plan(Wizard)								
Strategic Partner Group Name	Associate Strategic Partner		Intermediate Strategic Partner		Senior Strategic Partner		Principal Strategic Partner

Dear friends, congratulations once again! We have successfully secured profits on this trade!

So far, we've achieved the seventh victory out of our 2 win streak! We continue to maintain a winning streak in the cryptocurrency market. As we keep this momentum, I can almost hear Sia's popular song "Unstoppable" playing in my head. Indeed, when we apply the trading mindset of options contracts to cryptocurrency contracts, it's like delivering a crushing blow because cryptocurrencies are even simpler than stock

options—one correct move is all it takes to secure our deserved profits.

In this trade, we adopted a strategy of phased profit taking. It's clear from the earnings report that the profit rates differ for each group. I tailor a customized trading plan for each individual based on their capital, ensuring that your funds achieve their maximum potential! Members of higher level groups can also enjoy more benefits.

FB Finance Institute

As we discussed earlier, the weak PPI data has led to a slightly disappointing CPI outcome, causing funds that were betting on a 50 basis point rate cut by the Fed in September to exit early. The major indexes have once again pulled back from their highs, and the market is exhibiting a choppy trend. From the charts, we can see that the index is positioned below the A-shaped drop region, where the trapped funds need time to create room for an upward movement. Therefore, the market is likely to continue its oscillating trend to digest the overhead supply, making any rally a prime opportunity to sell stocks.

FB Finance Institute - 15th Session

So, what's the best trading strategy now? Become my Strategic Partner and join my team. What can I offer you?

1. Mutual Benefit

I need to secure the foundation seat and the role of guiding our students. You need to earn the profits you deserve. To achieve our common goal, I will provide you with AI4.0 system trading signals and fully commit myself to maintaining an exceptional performance to help us achieve a win-win outcome.

2. Exclusive Personal Strategies

For all the friends who join my team, I will offer outstanding personalized services:

- A. Provide a balanced plan for your assets between institute tokens and investment products, helping you steadily grow your wealth.
- B. Analyze the strengths and weaknesses of your current assets, assisting you in perfectly optimizing your capital for maximum efficiency.
- C. Deliver clear, one on one profit making trading signals to

FB Finance Institute - 15th Session

accelerate your wealth accumulation.

D. Help you move into a higher level team to enjoy more privileges.

3. Fulfilling My Campaign Pledge — A Samurai's Commitment to Honor

I will ensure our mutual interests are safeguarded through a formal contract agreement. Once this contract is in effect, we become comrades in the same trench, united in our goals. I will help you achieve your total return on assets, and you will help me become the undisputed Goat of the Institute. Additionally, I will exceed your expectations with the returns you gain.

A. I will help each partner achieve exceptional returns beyond the original expectations. Your baseline returns of 300%, 500%, 600%, and 700% will become your minimum guaranteed returns—just the starting point.

B. I will mentor each partner one-on-one to become a "Wizard" level trading master.

C. I will assist all partners in advancing to higher-level strategic partner teams, providing signals that have the potential to double

your profits.

So, my friends, there are only two things you need to do right now:

First, vote for me. Mr. B has overtaken me in yesterday's voting, and he detests my mockery of him as an "ordinary Robinhood trader." But time will tell—I will deliver a crushing blow with my trading results, showing dear Mr. Shark who truly commands the thunder in the investment market! So, please cast your vote for me!

Second, reach out to me as soon as possible. This week's super trend is still ongoing, and the sooner you join, the better the service you'll receive. You'll be able to seize more opportunities brought by this super trend. Friends, time waits for no one!

The Super Data Week's market momentum is already halfway through, and there are still plenty of opportunities to seize. Currently, after forming the Odin's Spear technical pattern, Bitcoin has surged and is now in a period of sustained sideways movement within this technical box. Within this zone, most daily K-lines have fluctuated over 3,000 points. Given that the overall trend is set to rise, if we use contracts to capitalize on opportunities in the cryptocurrency market, it means that going long on dips could yield over 300% profits each day!

If you join my team, we will share these trading signals together. Beyond helping you generate profits, I will also develop all partners into exceptional traders. Together, we will lead the Institute into a new chapter of brilliance in the next term!

Dear friends,

Listen up, we're winning this battle! We must unite and make sure our votes far surpass Mr. B's! In this critical final stretch, I'm going to give it my all and reach my peak performance. Just look at the profits we've achieved today—everyone knows that our team's results and execution are unmatched! I will forge our team into an unrivaled force, and I have the ability to make it happen!

Every single one of your votes is crucial. I will demonstrate my commitment with the greatest strength! This afternoon, Mr. B will deliver his concession speech, and we can all tune in to give our "swimming champion" a round of applause. Let's keep the momentum going!

Ladies and gentlemen, good afternoon. "Simplify investing, elevate countless families' quality of life." I'm Richard Bill, a devoted disciple of Prof. Clark, a proud beneficiary of the AI 4.0 system, and a strong contender for the next Chief Practical Instructor. Thank you all for your unwavering support!

Yesterday, I said their profits were crawling like snails, and today, Mr. W is clearly scrambling, desperately trying to catch up. Their four partner groups returns are at 41%, 57%, 77%, and 105%. And us? Our current returns are 38%, 51%, 66%, and 87.52%—but

don't celebrate just yet.

Mr. W wants to see us fail, but the truth is: the real game is just heating up. It doesn't matter if your fund pool is bigger, because I've got the strategies and the firepower to blow you out of the water. Team W, watch how we take you down, and then tell us who the real market dominators are! Stay tuned, because the real action is about to kick off. If you want to join the winning team, vote for me. Let's dominate this market and claim victory together!

Alright, listen Up, everyone—This week's data is an absolute goldmine! The market is bursting with opportunities right now, and I'll be dropping trading signals based on the AI 4.0 system's α & β strategy. Keep your eyes glued to our internal signals group—this is our prime moment to outshine Team W.

The PPI and CPI reports that dropped yesterday and today? They've completely changed the game. These inflation indicators are crucial for the Fed's rate decisions and have sent shockwaves

FB Finance Institute - 15th Session

through global investment markets.

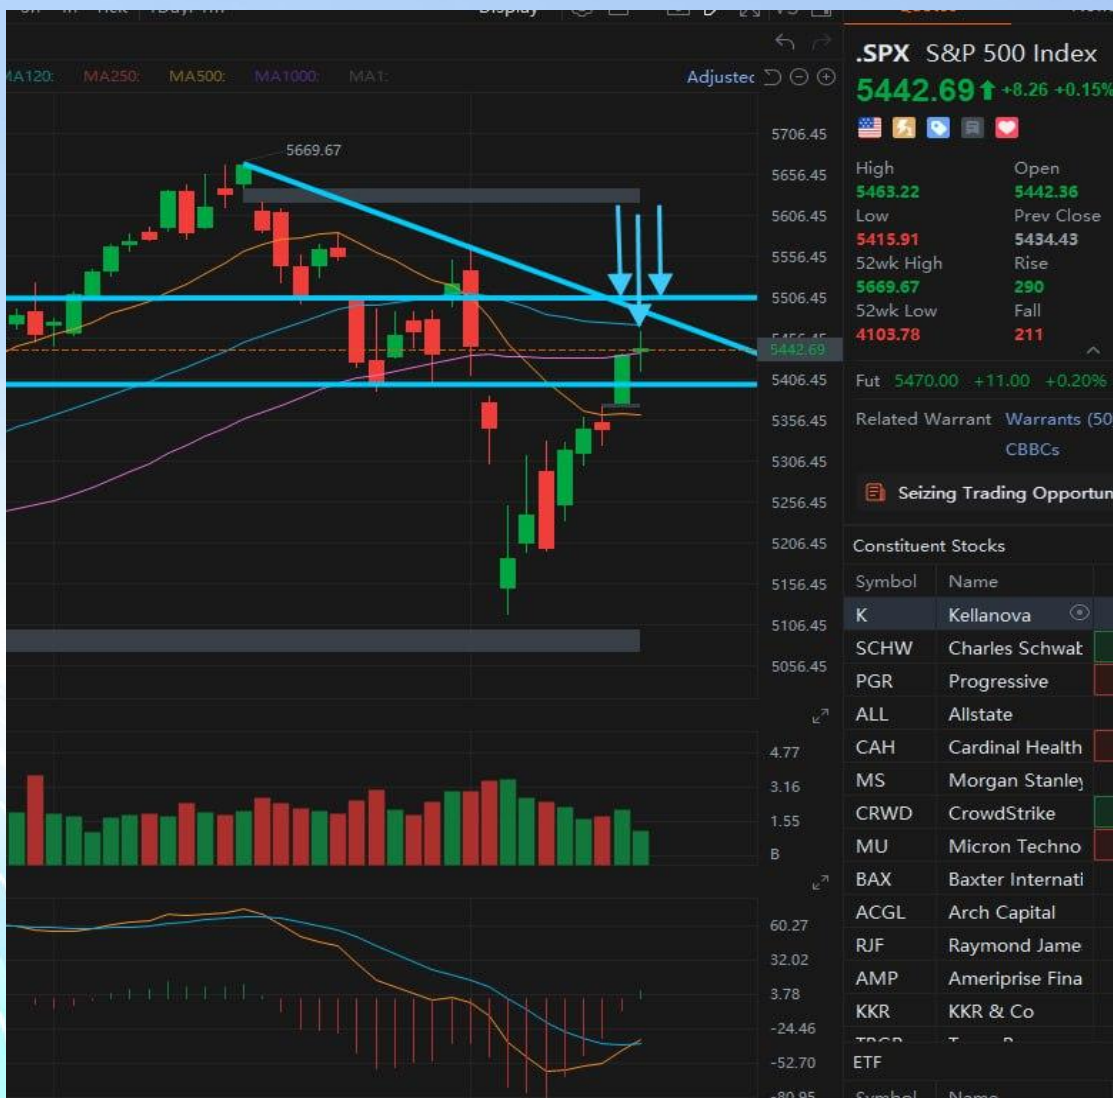

Here's the bottom line: July's CPI hit 2.9%, breaking the 3% mark for the first time since 2021. Core CPI has dropped for the fourth consecutive month, hitting its slowest pace since early 2021.

CPI dropping means inflation is cooling off, which eases the pressure on the Fed to hike rates further. Signs of slowing economic growth practically guarantee a rate cut in September—aimed at reviving economic activity, boosting consumer spending, and driving investment. So, what should you do right now?

AI 4.0

FB Finance Institute

A lot of beginners might look at this news and think it's a golden opportunity to get rich, but let me drop some truth. When rate cut expectations heat up, sure, the market might rally on that hope. But the moment a rate cut becomes a done deal, the smart money starts selling off, and the market takes a beating. That

FB Finance Institute - 15th Session

recent dip in the stock indices? It's all tied to the looming rate cuts and a slowing economy. As the rate cut gets closer, expect a wave of mid term investors to cash in their profits, making the market even more volatile.

Here's the kicker: the stock market is actually terrified of rate cuts. I broke this down in detail last Thursday. To put it simply, the market has turned into the Fed's backup fund pool, helping them lower the costs of rate hikes. But once a rate cut is locked in, the stock market gets ditched, left out in the cold like last season's fashion.

That's why today, even with positive data, we're not seeing the indices rally. Take SPX, for example—it's hit a triple resistance line: resistance line, downtrend line, and the MA34. The best case scenario now is just to stay stuck in a range. Gold, oil, and the yen? They're looking way more attractive than stocks right now—not to mention the crypto market!

So here's the play: sell those stocks, jump into the crypto market,

FB Finance Institute - 15th Session

and join the Strategic Partner Program. Back me, and I'll lead you to victory!

Yesterday, I pointed out the lack of promises from Mr. W, and wouldn't you know it, today he finally threw his supporters a bone. But if you're on Team W, you should be thanking me, not him!

Now, let's dive into my fifth promise. Yesterday, I introduced a cash reward system for the top three contributors. This \$6 million reward pool is primarily aimed at those in the Principal Strategic Partner group. But that's not all—when I win, I'll be distributing the entire \$10 million reward pool.

Here's the breakdown of the "Shark" Team Contribution Rankings and Reward System:

Principal Strategic Partner: The top three performers (those with the highest net profits) will receive \$3 million, \$2 million, and \$1 million, respectively (including cash and gifts). The total reward

value is \$6 million.

Senior Strategic Partner: The top three performers will receive \$1.2 million, \$800,000, and \$400,000, respectively (including cash and gifts). The total reward value is \$2.4 million.

Intermediate Strategic Partner: The top three performers will receive \$500,000, \$350,000, and \$150,000, respectively (including cash and gifts). The total reward value is \$1 million.

Associate Strategic Partner: The top three performers will receive \$300,000, \$200,000, and \$100,000, respectively (including cash and gifts). The total reward value is \$600,000.

Listen up, folks! Let's compare how Mr. W and I handle this \$10 million reward. He says he's going to split the \$10 million into \$5 million, \$3 million, \$1.5 million, and \$500,000, and then distribute it evenly among his team members. But me? I'm only rewarding the strongest few.

So, Mr. W, are you just handing out charity to your supporters? Folks, which system do you think actually builds the strongest of the strong?

Just look at our reward structures, and you'll see the difference in our characters. Mr. W is like a big sheep, trying to raise a flock of sheep. But me? I'm the leader of a wolf pack! So, do you want to run with the weak or stand strong with the powerful?

The real question is: how do you become one of the top three contributors in my four groups? Here are two shortcuts:

~ Invest More Capital: The more you invest, the stronger your position in the group, and the more you'll help grow our fund pool (we're still trailing right now). This boosts your influence and contribution, driving up the Institute Token price and supporting the future presale and service fees of the AI4.0 system.

~ Work Harder: It's not just about me—everyone needs to put in the effort. I've already shared four strategies from the α & β system, and I'll be applying them in real world trading to help

build a complete system for you. This means more trading opportunities and massive profit growth. If you're already doing well, help others improve too—that'll also boost your contribution score.

Folks, listen up! Yesterday, I laid out some seriously ambitious total asset return targets for us:

~ Before taking on this challenge, the four groups had return rates of 26.81%, 37.58%, 49.73%, and 67.42%.

~ My goal? To blow past those numbers within this month, hitting 300%, 500%, 600%, and 700%.

~ That means I'm committed to achieving 3x, 5x, 6x, and 7x growth on top of our current total returns. Here's the breakdown:

Associate Strategic Partner Group: Target return rate of 380%

Intermediate Strategic Partner Group: Target return rate of 688%

Senior Strategic Partner Group: Target return rate of 898%

Principal Strategic Partner Group: Target return rate of 1172%

Now, let's see what those targets look like with real numbers:

~ Investing \$50,000 in the Associate Strategic Partner Group:

Minimum return = \$190,000. Net profit to be paid = \$38,000.

Actual profit = \$152,000.

~ Investing \$160,000 in the Intermediate Strategic Partner Group:

Minimum return = \$1,100,800. Net profit to be paid = \$165,120.

Actual profit = \$935,680.

~ Investing \$310,000 in the Senior Strategic Partner Group:

Minimum return = \$2,783,800. Net profit to be paid = \$334,056.

Actual profit = \$2,449,744.

~ Investing \$810,000 in the Principal Strategic Partner Group:

Minimum return = \$9,493,200. Net profit to be paid = \$949,320.

Actual profit = \$8,543,880.

Hey, team, listen up! As I've been keeping an eye on the data while sharing these updates, I've spotted an incredible opportunity. It's absolutely crucial that you execute every trading signal we provide—this is crucial no exceptions. Now, let's talk about why the written partnership contract is a win-win for

everyone involved.

Here's how this contract benefits us all:

- ~ It will significantly boost the value of our Institute Tokens. Every substantial purchase pushes the price higher, which is a win for all of us.
- ~ As the token value rises, we'll have more resources to pour into AI4.0's dynamic marketing campaigns, ensuring we're ready for a powerful launch.
- ~ Your profit growth will directly support the smooth presale of the AI4.0 system application.
- ~ We've got a smart profit distribution model that's vital for the growth of both the team and the Institute.
- ~ We're identifying and nurturing top tier traders, creating a powerhouse team.
- ~ We're building a high net worth partner network to solidify the foundation of the AI Foundation's Elite Club.

For all you incredible supporters, the benefits and rewards are even sweeter:

~ The rise in Institute Tokens is a golden investment opportunity, and you'll be a key player in it.

~ Enjoy top tier services from different partner groups, with us taking on the risk. This reflects our unshakable confidence in the AI4.0 system.

~ You'll have lifetime dividend rights with the AI4.0 system, ensuring continuous returns.

~ There's a chance for you to become a regional agent or distributor for AI4.0, opening up even more opportunities.

~ Master real world trading skills through our system—there's no better teacher than experience. Top performers could even step into a career as a professional trader.

~ Join the AI Foundation Elite Club, where you'll connect with industry leaders and top minds.

~ Finally, as one of my supporters, not only will you achieve higher profit targets, but you'll also receive a free one year subscription to the AI4.0 Investment System Institutional Edition

FB Finance Institute - 15th Session

(valued at \$1 million). Plus, if you're among the top 12 performers across the four groups, you'll share in the \$10 million reward!

Folks, everything we do is geared towards maximizing our investment returns, and I can't stress this enough—your profit maximization is the key to maximizing the Institute's profits. Now is the time to act—take advantage of these opportunities, and let's journey together towards financial freedom!

Folks, listen up! The Strategic Partner Investment Cooperation Plan is the most revolutionary initiative in the history of our Institute. In my 16 years as a student of Prof. Clark, nothing has even come close to this. We're not just setting ambitious goals—we're ensuring that Prof. Clark's grand exit is nothing short of legendary. This is our chance to elevate him from the training stage to the top tier of the AI Foundation. We owe him everything, and we've got to make this moment truly spectacular.

All of this stems from one powerful idea that Prof. Clark had: to make the lives of those around him better. From founding the

FB Finance Institute - 15th Session

Institute, to launching the Lazy Investor System, to developing quantitative trading models, and finally reaching the pinnacle with the AI4.0 system—his journey has been filled with grand dreams and relentless pursuit. This isn't just a tool; it's a symbol of his unwavering determination.

Now, through the Strategic Partner approach, we're not just giving back—we're uniting forces to push the AI4.0 system into the spotlight. This is a bold strategy, a groundbreaking plan. Do you see it? This is our moment to shine, to make waves, and to ensure that Prof. Clark's legacy transcends the ordinary. Capture this opportunity, and let's make history together!

When the AI4.0 system takes center stage, we're stepping into the spotlight right alongside it. Can you feel the gravity of this moment? This Strategic Partner Investment Cooperation Plan is a battle where failure isn't an option. To guarantee success, this written contract isn't just a formality—it's our ironclad commitment, the driving force behind our all out effort. It's the assurance that we'll deliver on our promises and the key to

FB Finance Institute - 15th Session

propelling every single one of us forward, achieving a win-win outcome!

We've got the data to back it up—achieving long term returns of 300% to 1000% is well within our reach. Now, with everyone sharper, more focused, and more determined, we've got the power and confidence to not just hit those targets, but to blow right past them.

So, here's what you need to understand: launching this grand plan isn't just about navigating stock market fluctuations or testing our patience. It's about elevating AI4.0 and our Institute to new heights, creating a legacy we can all be proud of. Let me tell you, this is your moment to jump in. Right now, while it may look like a showdown between me and Mr. W, it's really a race between you and your own potential.

Fighting for a grand vision is both an honor and a challenge. You'll look back on today's decision with gratitude, just as I look back with deep appreciation for my choice to follow Prof. Clark in

FB Finance Institute - 15th Session

2008—a choice that completely changed the trajectory of my life!

8/14/2024	580%	49.28%	750%	66.47%	975%	86.15%	1285%	111.89%

Folks, buckle up! As your fearless leader, I swear I won't let you down. Today's data makes it crystal clear—crushing Team W is going to be a walk in the park. Sure, they had a decent run today, but don't forget—they're still stuck in the slow lane. Watch closely, because while turtles might move faster than snails, they'll make a turtle look like a sprinter by comparison.

Here's the game plan: We're going to reinvest 50% of our profits from this contract trade into 30 day or 90 day financial products and Institute Tokens. These investments will make money for you while you're catching some Z's.

And listen up, especially those of you still on the fence—some members of my partner groups have already leveled up and advanced by following the smart, customized strategies I've been sharing.

So, how do we secure the win? Simple: Even though our fund pool is currently trailing behind Team W, this is exactly when we show them who's boss. Let's turn these profits into their worst nightmare!

Folks, Today's Challenge is Here:

1. What are the profit targets for each partner group this month according to my goals? Based on your current funds, what's the minimum height you expect to reach this month?
2. Why is the written contract for the Strategic Partner Investment Cooperation Plan considered an ironclad commitment to success? What benefits do the Institute and the participants each gain?
3. Given the current data performance, who do you think is more formidable—me or Mr. W? What specific actions are you going to

take to support your choice?

Folks, today's CPI data didn't disappoint—it handed us the perfect wave to ride. And guess what? Tomorrow's economic data is bringing even bigger waves for us to conquer. That's all for today. If you're ready to show Team W what true dominance looks like, cast your vote for me and join our team. Let's make sure they understand what true power looks like and push them to step up their game, at least enough to keep up with a turtle. Thank you!
